

Sustainable Finance

CAS CERTIFICATE OF ADVANCED STUDIES

Understand sustainable finance principles and build your own responsible investment strategy

Designed by professionals for professionals, the Certificate of Advanced Studies (CAS) in Sustainable Finance will give you the fundamentals of this rapidly growing field in a very flexible way, mainly through online teaching.

Strengths

Seasoned sustainable finance experts from the financial, banking, international organisations and academic domains have contributed to this CAS. A final week in Geneva is devoted to networking, live presentations, discussions and visits at expert organisations, enabling participants to dive into the rich local sustainability ecosystem.

Profile

Local and international finance professionals willing to take the next turn in their career: financial analysts, portfolio managers, independent wealth managers, client advisors, and junior ESG analysts.
