HES-SO & ESA : CELEBRATING A SUCCESSFUL SPACE PARTNERSHIP

To celebrate the third launch of a HES-SO students experiment aboard a REXUS rocket, HEPIA invited ESA engineer Koen De Beule to talk about his career as a « last resort problem solver » and inspire the future generation of space engineers.

The Foyer will hold an exhibition of all the previously-flown and to-be-flown hardware.

PROGRAMME :

- HADES team : *An innovative space capsule*
- ARES II team : *An extraordinary launch campaign*
- Koen De Beule : *Being an ESA engineer*
- **Special Guest**
- Aperitif

Tuesday 12th November 2019
HEPIA | Aula G. Charpak
Prairie 4 | 1202 Genève
Door opening | 17H30
Conference starting | 18H30
